

Mountain Bike Rear Suspension Component – Glue Bond Assembly

Alloy - Aluminum 357

Temper – T6

Near net shape, superior fatigue strength and elongation, clean surface finish for glue bond assembly, designed for SSM.

Computer Heat Sinks

Alloy - Aluminum 356

Temper – T5

Net shape, high conductivity application.

Industrial Connector Bolt

Alloy - Aluminum 357

Temper – T5

Net shape detail eliminating machining.

Racing Bike Rear Swingarm Component

Alloy - Aluminum 357

Temper – T6

Net shape, weldable, replaced machined part.

Computer Disk Drive Motor Base

Alloy - Aluminum 357

Temper – T5

Net shape, porosity-free to avoid particulate, oil contamination within drive.
